

EC 25

Version: 01-2011

Asynchronous control

- with main switch
- welding current control
- welding time infinitely variable

Voltage supply	230 and 400 V / 50 Hz (special voltages available)
Allowable voltage range	+ 15% / - 10% from mains connection
Inputs	Start Time settings with potentiometer Current control
Welding time	from 0.2 up to 1.5 seconds
Order-number:	XS0.101.000

WMA is general distributor for NIMAK welding machines in Baden-Wuerttemberg

We reserve the right to make changes which are in the interest of technical progress.
