

# Eco Weld 1000

Version: 01-2011

## water cooled microprocessor weld controllers

- 5-times-control with 8 programs
- 1-9 impulses adjustable
- automatic 50/60 Hz recognition
- Stepping and locking contact
- Single and serial point
- Status indication for in- / output contacts with LEDs
- Connection to machine completely plug able
- fast changing due to rail system
- air cooled power parts
- easy to operate; main-switch

Times:	5
Operating mode:	Single point / serial point
Power part:	500 A
Order number:	XS6.301.102 Gun-design XS6.301.202 Machine-design
